Need help navigating your statement? Visit <http://raymondjames.com/statements/comp> for a guide.

The following information is related to the investments currently held in your account(s) at Raymond James & Associates, Inc. (RJA), member New York Stock Exchange/SIPC. For Individual Retirement Custodial Accounts (IRA accounts), Raymond James Trust Company of New Hampshire is custodian (RJ Trust Co NH - Custodian) and RJA is sub-custodian. RJA is registered with the Securities and Exchange Commission as a broker-dealer and investment adviser, and your financial advisor may be licensed to offer and provide both brokerage and advisory services to you. The account information provided herein is inclusive of any advisory or brokerage accounts held at RJA, which acts as custodian or sub-custodian for funds and securities deposited in your account(s) directly by you or as a result of transactions we process for your account(s). Information about commissions, service fees and other charges related to your transactions is included on your transaction confirmations. Subject to the limited exceptions outlined in the applicable client agreement, all financial products purchased or sold through an account for which RJA acts as custodian or sub-custodian should appear on a trade confirmation and your account statement. Please contact your financial advisor and Raymond James Client Services at 800.647.7378 if you do not see any such purchase or sale reported on your trade confirmation or account statements; if you have questions about the securities positions, balances and transactions in your account; or if you note any other inaccuracy on your account statement. If you have questions about the following information or would like to update your investment profile, please contact your financial advisor. Raymond James' financial statement is available for your inspection at its offices or at <https://www.raymondjames.com>, or a copy of it will be mailed upon your written request. Any oral communications should be reconfirmed in writing to further protect your rights, including rights under the Securities Investor Protection Act.

To report a complaint or feedback: your satisfaction matters to us. If we fall short of your expectations or if you've had difficulty getting an issue resolved, please let us know so we can address your concerns as quickly as possible. Call us toll-free at 833-462-0720.

Raymond James International Headquarters | 880 Carillon Parkway | St. Petersburg, FL 33716 | <https://www.raymondjames.com>

Securities Investor Protection Corporation - Raymond James & Associates, Inc. is a member of the Securities Investor Protection Corporation (SIPC), which protects securities customers of its members up to \$500,000, including \$250,000 for claims for cash. Money market fund shares are not considered cash for this purpose; they are securities. You may obtain Information about SIPC, including an explanatory SIPC brochure, by calling SIPC at 202-371-8300 or visiting <http://www.sipc.org>. Raymond James & Associates, Inc. has purchased excess SIPC coverage through various syndicates of Lloyds, a London-based firm. Excess SIPC coverage is fully protected by the Lloyds trust funds and Lloyds Central Fund. The additional protection currently provided has an aggregate firm limit of \$750 million, including a sub-limit of \$1.9 million per customer for cash above basic SIPC. SIPC coverage is not the same as, and operates differently from, FDIC deposit insurance. Account protection applies when a SIPC-member firm fails financially and is unable to meet obligations to securities clients, but it does not protect against market fluctuations.

Raymond James & Associates, Inc. and Raymond James Financial Services, Inc. are affiliated with Raymond James Bank, member FDIC. Unless otherwise specified, products purchased from or held at Raymond James & Associates or purchased from Raymond James Financial Services are not insured by the FDIC, are not deposits or other obligations of Raymond James Bank, are not guaranteed by Raymond James Bank, and are subject to investment risks, including possible loss of the principal invested.

Securities/Investment Pricing - Raymond James endeavors to display pricing information where available, but pricing source, type of product, and market for the product are important to consider regarding the reliability and accuracy of any price displayed. Although sources used for pricing publicly traded securities and other investments are considered generally reliable, the prices displayed on your statement may be based on historical trades, bid/ask information, third-party evaluations, or other methodologies. Therefore, the prices displayed on your statement may or may not reflect prices you would receive in the current market. **By including a price for any non-publicly traded private securities in the statement, Raymond James makes no representation regarding the accuracy, reliability, completeness or attainability of such pricing. Although we seek third-party sources where possible, in some circumstances the pricing may be based on representations made by the security issuer and therefore may not be obtained from or based on an independent or third-party source.** Pricing of non-publicly traded private securities may be subjective and based on varying methodologies or assumptions, and accordingly, may not be reliable and should not be considered proof of liquidity at any particular price. You should evaluate independent sources to

confirm the valuation of such securities. Investment decisions should be made only after contacting your financial advisor.

FINRA BrokerCheck - For additional background information on any firm or registered representative with the Financial Industry Regulatory Authority (FINRA), the firm would like to provide you with the following information: 1) FINRA BrokerCheck hotline telephone number is 800.289.9999; 2) the FINRA website address is <http://www.finra.org>; and 3) for a copy of a brochure that includes important information concerning FINRA BrokerCheck, call the hotline or visit <http://www.finra.org>.

MSRB Disclosure - Raymond James & Associates, Inc. and Raymond James Financial Services, Inc. are registered with and subject to the rules and regulations of the U.S. Securities and Exchange Commission (SEC) and the Municipal Securities Rulemaking Board (MSRB). Both the SEC and the MSRB publish websites containing information and resources designed to educate investors. In addition to educational materials about the municipal securities market and municipal securities market data, the MSRB website includes an investor brochure describing protections that may be provided by MSRB rules, including how to file a complaint with the appropriate regulatory authority. For more information, visit <https://www.sec.gov/> and <http://www.msrb.org/>.

Financial Advisor Title & Capacity - Raymond James generally refers to financial professionals as "financial advisors" or "advisors." Your financial professional may have a different title and will disclose the capacity in which the firm and he or she acts when providing services to you.

Form CRS and Important Client Information - For further information about Raymond James, visit <http://www.raymondjames.com/legal-disclosures> to access the relevant Form CRS and Important Client Information.

Availability of Free Credit and Bank Deposit Program - You have the right to receive, in the normal course of business and subject to Raymond James having received the funding, any free credit balance, bank deposit program balance, and any fully paid securities to which you are entitled, subject to any obligations you owe in any of your accounts.

Understanding Your Statement (continued)

Primary Account No. 510R3347

Third Party Payments Disclosure - In addition to the fees you pay directly for the services offered by Raymond James and your advisor, Raymond James receives fees from various sources. For more information on fees and expenses, please see

<https://raymondjames.com/legal-disclosures/third-party-payments>.

Cost Basis - Effective January 1, 2011, Raymond James reports adjusted cost basis for tax lots of securities covered by the Emergency Economic Stabilization Act of 2008 to the IRS on Form 1099-B. These tax lots are indicated by a "c." Raymond James will default to the first-in, first-out (FIFO) cost basis accounting method for trades and transfers unless a different method has been selected.

For tax lots or securities that are not covered by the Emergency Economic Stabilization Act of 2008, cost basis information may not be available, may have been estimated by you or your financial advisor, or may have been obtained from third-party sources, and in these instances, Raymond James cannot guarantee its accuracy. Information for uncovered positions will not be reported to the IRS.

Gain or loss will only be calculated for tax lots that have cost basis. Gain or loss information may or may not reflect adjusted cost for return of principal/capital or accretion/amortization. Tax lots where the cost basis is true zero, displayed as 0.00, are included in cost calculations. "Gain or (loss) Pct" is calculated utilizing total cost basis.

Missing basis is not included in cost calculations. Please contact your financial advisor to have missing cost basis information added to your account.

The cost basis, proceeds, or gain/loss information reported has been adjusted to account for a disallowed loss from a wash sale. These adjustments are indicated by a "w" on the affected taxlots. A wash sale occurs when a security is sold for a loss and is re-purchased 30 days before or after the sell.

Cost basis information for uncovered securities or tax lots will not be reported to the IRS; it is displayed for your information only and should not be relied upon for tax reporting purposes. Past performance is not a guarantee of future results. Market valuations may have been obtained from third-party sources and Raymond James cannot guarantee its accuracy or completeness.

For securities classified as Grantor or Royalty Trusts, Master Limited Partnerships or other widely held fixed income trusts, cost basis is not adjusted. These securities receive principal payments or distributions that are classified differently by the issuer at the end of the year. Clients should continue to rely on the issuer information for both cost basis adjustments as well as proceeds adjustments for these securities. For this reason the gain/loss displayed will be unadjusted and is not a true indicator of the investment return. Any adjustment to sales proceeds will be reflected on your 1099.

Unrealized gains or losses are calculated for depreciated gift taxlots. This is referred to as dual basis and is indicated with a "d." The current market value is used to estimate the cost basis and gain/loss until the position has been sold. Once sold, cost basis and gain/loss will be established as the final proceeds are available, and true cost and gain/loss can be determined.

Reinvestments of dividend or capital gain distributions are excluded from Amount Invested but are included in Total Cost Basis. Amount Invested should not be used for trading purposes, it does not represent taxable cost basis, and gains/losses based on amount invested may vary from actual realized gain/loss that will appear on year end 1099's. For any security in which a client has elected the average cost reporting method, the Amount Invested will utilize the average cost per share of all tax lots to calculate amount invested.

Mutual fund tax lots are displayed as one total position and may include covered and non-covered tax lots some of which could be adjusted for wash sales. Sold mutual fund shares that were purchased through reinvestments are combined and shown with a purchase date of "various."

Adjustments made to cost basis throughout the year may cause the information displayed on your

client statement to differ from what is reported on the 1099-B which is provided to the IRS at the end of the year.

Realized Gain/loss - is based upon total cost basis, and includes the cost basis of reinvested shares. Realized gain/loss does not include mutual fund long term capital distribution amounts. For taxable accounts, including those that receive information only 1099's, short term debt instruments that result in a capital gain will generally not appear on the realized gain loss report, as those amounts are reported as ordinary income on the year end 1099. Market Discount is generally not reportable as a realized gain/loss amount, as it is also reportable as ordinary income on the year end 1099.

Cost basis for 529 accounts is provided as informational only and year end 1099Q reports are prepared independently from cost basis data shown on the brokerage statement.

Please refer to the fixed income and alternative investment disclosures for additional cost basis information on those securities.

Alternative Mutual Funds - Like traditional open-end mutual funds, U.S. alternative mutual funds are mutual funds that are regulated under the Investment Company Act of 1940 (the "1940 Act"), which imposes certain restrictions on fund activities such as limitations on investments in illiquid assets, the use of leverage, and concentration. Non-U.S. alternative mutual funds are not subject to the 1940 Act. Alternative mutual funds (whether U.S. or non-U.S.) generally employ more complex investment strategies than traditional open-end mutual funds, and thus may be subject to risks that are not suitable for all investors, including but not limited to, increased volatility resulting from the fund's underlying investments, losses from short selling, magnified losses due to use of leverage, relatively high operating expenses/fees compared to traditional mutual fund strategies, and limited performance history. Furthermore, there may be additional unforeseen risks that could be material to your investment decision. For more detailed information about your alternative mutual fund holdings, please review the applicable offering documents, including the prospectus and summary prospectus.

Client Interest Program - The Client Interest Program (CIP) is an on-demand alternative for client cash that is held for future investment. As required by the U.S. Securities and Exchange Commission Rule 15c3-3, "The Customer Protection Rule," Raymond James segregates client cash from firm cash. The client cash that is set aside is required to be held in bank accounts or in certain high-quality U.S. Government securities. CIP balances are included in the coverage provided by the Securities Investor Protection Corporation (SIPC) and excess SIPC. The CIP rate displayed in the Cash & Cash Alternatives section of your statement is the established rate for the last business day of the reported month. However, in the event that a large deposit is made on the last business day of the month, the rate for the next business day may be displayed. Estimated Annual Income is calculated using this rate and, therefore, is solely an estimated value for the month and may not reflect your actual income. For current rates visit <http://www.raymondjames.com/rates.htm>.

As a reminder, Raymond James may modify or amend the Cash Sweep Program including the terms, conditions and availability of any Cash Sweep option at any time in its sole discretion by providing you with thirty (30) days' prior notice, or in some cases, as set forth in your account opening documentation, no prior notice.

Dollar-Weighted Performance Reporting - The dollar-weighted performance results represented in this statement are based on performance calculations that take into account the impact of deposits and withdrawals. Because these cash flows are beyond the control of the advisor, they should not be used to evaluate his/her performance. Returns exclude some limited partnerships, unpriced securities and annuity history prior to the annuity being linked to the account. Performance returns are calculated net of management fees, if applicable. Returns for periods greater than one year are annualized returns unless they represent entire 12-month periods. All performance figures exclude unpriced securities (including securities of indeterminate value), limited partnerships (other than limited

Understanding Your Statement (continued)

Primary Account No. 510R3347

partnerships classified as Alternative Investments and appearing in that section of your statement). Performance for Annuity and RJ Bank CD's may not be all inclusive. Considering these exclusions, overall performance may be different than the results presented in this statement. Past performance is not a guarantee of future results. Information used to calculate performance may have been obtained from third party sources and Raymond James cannot guarantee the accuracy of such information.

Fixed Income Investments - Fixed income securities, including brokered CDs, are priced using evaluations, which may be matrix- or model-based, and do not necessarily reflect actual trades. These price evaluations suggest current estimated market values, which may be significantly higher or lower than the amount you would pay (receive) in an actual purchase (sale) of the security. These estimates, which are obtained from various sources, assume normal market conditions and are based on large volume transactions. Market prices of fixed income securities may be affected by several risks, including without limitation: interest rate risk - a rise (fall) in interest rates may reduce (increase) the value of your investment, default or credit risk - the issuer's ability to make interest and principal payments, and illiquidity risk - the inability to sell bonds promptly prior to maturity with minimal loss of principal. An overview of these and other risks is available at <https://www.raymondjames.com>, <http://www.finra.org>, <https://emma.msrb.org>, and <http://investinginbonds.com>.

Investors interested in regular updates about individual municipal securities can sign up on EMMA (<https://emma.msrb.org>) to receive e-mail alerts when disclosure documents are posted on the website. Investors who track particular bonds identified by their unique "CUSIP" numbers can receive an e-mail notification from EMMA every time a new disclosure document is posted for that security. These documents can include annual and other periodic financial filings, operating data and other types of material events. To sign up for an alert, enter a nine-digit CUSIP number into the "Muni Search" function of EMMA.

Securities ratings, provided by independent nationally recognized statistical organizations, also called Ratings Agencies, are appraisals of the financial stability of a particular issuer and its ability to pay income and return principal on your investment. Although they can assist investors in evaluating the credit worthiness of an issuer, ratings are not recommendations to buy, sell or hold a security, nor do ratings remove market risk. In addition, ratings are subject to review, revision, suspension, reduction or withdrawal at any time, and any of these changes in ratings may affect the current market value of your investment. A Rating Agency may also place an issuer under review or credit watch which may be another indicator of a future rating change. Generally, higher yields and/or lower ratings reflect higher perceived credit risk. News events relating to a particular issuer may generally impact the market price, and consequently the yield, of that issuer's securities, even if their rating has not yet changed. Securities with the same rating can actually trade at significantly different prices. The absence of a rating may indicate that the issuer has not requested a rating evaluation, insufficient data exists on the issuer to derive a rating, or that a rating request was denied or removed. Non-rated securities are speculative in nature and are less liquid. Raymond James trade confirmations, online accounts and monthly statements display only the ratings of those Rating Agencies to which Raymond James subscribes. For more information on ratings, please visit <https://www.moody.com>, <http://www.standardandpoors.com> and <https://www.fitchratings.com>. Individual investors may request Moody's and/or S&P credit reports from their financial advisors. Additionally, Fitch reports are available for municipal bonds.

Certificates of Deposit (CDs) purchased through a securities broker and held in a brokerage account are considered deposits with the issuing institution and are insured by the Federal Deposit Insurance Company (FDIC), an independent agency of the U.S. government. FDIC insurance covers up to \$250,000 (including principal and interest) for deposits held in different ownership categories, including single accounts, joint accounts, trust accounts, IRAs, and certain other retirement accounts, per issuer. If you purchased this CD at a premium to par, the premium is not FDIC insured. Certificate of Deposit Disclosure Statement is available at <https://www.raymondjames.com/liquid.htm>. For more

information, please visit <https://www.fdic.gov>.

Mortgage-backed securities and Collateralized Mortgage Obligations (CMOs) are priced based on average life. The actual maturity date may be shorter than stated. For more information, please review FINRA's Investor's Guide to Mortgage Securities and CMOs at <http://www.finra.org>.

Foreign bonds are subject to additional risks, including without limitation, currency fluctuations, differing accounting standards, political and economic instability, and changes in tax laws.

The cost basis for Original Issue Discount (OID) bonds and municipal bonds purchased at a premium may or may not have been adjusted using the constant yield method, providing an approximation of the adjusted cost basis and unrealized gains or losses. Cost basis information is displayed for your information only and should not be relied upon for tax reporting purposes. You should consult your tax advisor to ensure proper tax reporting.

Accrued interest for Fixed Income positions is not included in the total position value or the account summary total. Accrued interest is the interest earned but not yet paid on the bond since the principal investment or since the previous coupon payment if there has been one already. In most cases, it is calculated from the date of the last coupon payment (or dated date) through the last day of the month.

UIT - The price displayed on your statements and in Client Access represents that day's net asset value. If you choose to liquidate units prior to termination of the trust, the liquidation proceeds will equal end-of-day Net Asset Value (NAV), less any outstanding deferred sales charges. Once the deferred sales charge period has ended, liquidation value will equal NAV.

A number of UITs employ, to varying degrees, more sophisticated financial strategies and instruments such as derivatives in order to achieve their investment objectives. Those UITs are commonly referred to as "non-traditional UITs." Non-traditional UITs are more complex than traditional UITs and may not be appropriate for all investors.

Investors should consider the UIT's investment objective, risks, charges and expenses carefully before investing. The prospectus, which contains this and other important information, is available from your financial advisor and should be read carefully before investing.

Future Payments - Cash and stock dividends, interest and principal payment information are provided to Raymond James by outside vendors. The information is believed to be accurate; however, because future payments listed may not represent all dividends, interest and/or principal that will be paid into your account, the information should be used as an estimate only. Dividends and interest payments are not included as part of your portfolio value; principal payments are included in your total portfolio value.

Raymond James Bank Deposit Program - The Raymond James Bank Deposit Program is a multibank cash sweep program that deposits available cash in your brokerage account into interest-bearing deposit accounts at one or more banks. Raymond James Bank Deposit Program balances are insured solely by the Federal Deposit Insurance Corporation (FDIC), subject to FDIC limitations and guidelines, which are explained at <https://www.fdic.gov>. If you elected the Raymond James Bank Deposit Program as your sweep option, then any balance in a bank deposit account in the RJB DP can, on your order, be liquidated and the proceeds returned to your securities account or remitted to you.

The Raymond James Bank Deposit Program rate displayed in the Cash & Cash Alternatives section of your statement is the established rate for the last business day of the reported month. However, in the event that a large deposit is made on the last business day of the month, the rate for the next business day may be displayed. Estimated Annual Income is calculated using this rate and, therefore,

Understanding Your Statement (continued)

Primary Account No. 510R3347

is solely an estimated value for the month and may not reflect your actual income. For current rates visit <http://www.raymondjames.com/rates.htm>.

"Your bank priority state" indicates the corresponding Bank Priority List that applies to your account. "RJBDP participating banks you declined" displays the names of the banks you have designated as ineligible to receive your funds, which results in your funds being directed to the next bank on the Bank Priority List. "Participating banks recently added" displays additional banks that have been added to the program in the last 90 days. You have the right to designate any bank in the program as ineligible to receive your funds by contacting your financial advisor.

More information about the Bank Deposit Program, including the current Bank Priority Lists, is available at <https://www.raymondjames.com/rjbdp>.

As a reminder, Raymond James may modify or amend the Cash Sweep Program including the terms, conditions and availability of any Cash Sweep option at any time in its sole discretion by providing you with thirty (30) days' prior notice, or in some cases, as set forth in your account opening documentation, no prior notice.

Exchange-Traded Products (ETPs) - ETPs are investment products that are listed on a national stock exchange and can be bought and sold in the equity trading markets. ETPs encompass a number of structures that track an underlying benchmark, index or portfolio of securities. ETPs may be structured as registered unit investment trusts (UITs), exchange-traded funds (ETFs), exchange-traded notes (ETNs), grantor trusts or commodity pools.

A number of ETPs employ, to varying degrees, more sophisticated financial strategies and instruments such as leverage, futures, swaps, derivatives, and short selling in order to achieve their investment objectives ("Alternative ETPs"). Alternative ETPs are more complex than traditional ETPs and may not be appropriate for all investors. These may include leveraged or inverse ETPs, some actively-managed ETPs, currency ETPs, commodity ETPs, target return ETPs, volatility ETPs, some ETNs and other products.

Alternative ETPs will generally have higher fees than traditional ETPs. All fees and expenses are described in the prospectus. The ability of an ETP issuer to perpetually create new shares contributes to an ETP's efficiency and accuracy in tracking its index. However, under certain circumstances, issuers may cease or suspend creating new shares, which may cause ETPs to trade at a price that differs significantly from the value of its underlying holdings or index. Furthermore, all ETPs may trade at a premium or discount to their net asset value (NAV) (or indicative value in the case of ETNs).

Some ETPs may not trade in high volume, which could impact your ability to buy or sell your shares at the desired price and/or quantity. ETPs can be closed for a variety of reasons, which can cause forced taxable events for investors, including capital gains distributions. Furthermore, there can be closing costs associated with the final liquidation of the ETP and index tracking uncertainty as the ETP liquidates its assets.

Investors should consider an ETP's investment objective, risks, charges and expenses carefully before investing. The prospectus, which contains this and other important information, is available from your financial advisor and should be read carefully before investing.

Market-Linked Investments - Market-Linked Investments, commonly referred to as structured investments, generally include Market-Linked Notes and Market-Linked CDs. Market-Linked Investments, including Market-Linked CDs, are priced using evaluations which are typically model-based and do not necessarily reflect actual trades. Additionally, the complete costs incurred by an issuer associated with issuing, selling, structuring and hedging Market-Linked Investments are not fully deducted upon issuance, but over time. As such, initial statement price evaluations are expected to be higher than the current estimated market values during this initial period. Beyond this period, the

statement price evaluations suggest the current estimated market values, which can be higher or lower than the amount you would receive in an actual sale. These estimates assume normal market conditions and are based on large volume transactions. Estimated Annual Income and Estimated Income Yield provided on this statement for Market-Linked Investments are an estimate of the income an investment will distribute during the year and assumes that the underlying market performance meets the condition required for income to be paid. Market prices of Market-Linked Investments may be affected by several risks, including without limitation: interest rate risk - a rise (fall) in interest rates may reduce (increase) the value of your investment, default or credit risk - the issuer's ability to make interest and principal payments, and illiquidity risk - the inability to sell securities promptly prior to maturity with minimal loss of principal. An overview of these and other risks is available at <https://www.raymondjames.com>, <http://www.finra.org>, <https://emma.msrb.org>, and <http://investinginbonds.com>.

Market-Linked Certificates of Deposit (CDs) purchased through a securities broker and held in a brokerage account are considered deposits with the issuing institution and are insured by the Federal Deposit Insurance Company (FDIC), an independent agency of the U.S. government. FDIC insurance covers up to \$250,000 (including principal and interest) for deposits held in different ownership categories, including single accounts, joint accounts, trust accounts, IRAs, and certain other retirement accounts, per issuer. If you purchased this CD at a premium to par, the premium is not FDIC insured. Certificate of Deposit Disclosure Statement is available at <https://www.raymondjames.com/liquid.htm>. For more information, please visit <https://www.fdic.gov>.

Market-Linked Notes (MLNs) are not FDIC insured, are not deposits, and may lose value.

REITs/Tangibles - Certain Direct Participation Programs (DPPs), such as limited partnerships and private placements, are not listed on a securities exchange, do not have readily liquid markets or ascertainable prices, and generally must be held to termination to maximize returns. Raymond James & Associates, Inc. provides estimated values that are obtained from an independent valuation service or other source or from information made public by the DPP. These values will be different from your purchase price and may not be indicative of the proceeds you should expect if you sell the security. When an estimated value is not readily available, the value is shown as "Not Available" on your customer statement. Cost basis is not adjusted for return of capital. In a qualified retirement account, income generally accumulates on a tax deferred basis. Limited Partnerships may generate Unrelated Business Taxable Income (UBTI), which can create a tax liability that must be paid from your qualified retirement account. To the extent that Raymond James & Associates Inc. is your IRA custodian, and there is a potential federal tax liability for unrelated business taxable income (UBTI) generated by the Fund, Raymond James will take the necessary steps to pay the federal tax from the retirement account by working with a third party to compute the tax liability and prepare IRS form 990-T for submission to the IRS. With respect to state tax reporting obligations, or for UBTI planning in the future, please address any questions to your tax advisor.

Estimated Annual Income and Estimated Income Yield - The Estimated Annual Income (EAI) and Estimated Income Yield (EIY) provided on this statement are an estimate of the income a security will distribute during the year. These figures should not be confused with actual cash flows, investment yields or investment returns. Actual income or yield may be lower or higher than the estimated amounts. A number of factors may influence the actual income or yield that is received. The amount or frequency of an issuer's dividend may fluctuate or cease, which may cause the income and or yield of the security to fluctuate. EIY reflects only the income generated by an investment. It does not reflect changes in its price, which may fluctuate. EAI and EIY for certain types of securities could include a return of principal or capital gains which could overstate the EAI and EIY. Information used to calculate Estimated Annual Income and or Estimated Income Yield may be obtained from third party sources and Raymond James cannot guarantee the accuracy of such information. Estimated Annual

Understanding Your Statement (continued)

Primary Account No. 510R3347

Income and or Estimated Income Yield amounts should not be used as a financial planning tool.

Standing Withholding Elections - The term "standing withholding election" refers to a federal or state income tax withholding election made for a Raymond James Individual Retirement Custodial Account (IRA) that is carried over and applied to all future distributions from that IRA unless it is changed or revoked. Having standing federal and state withholding elections in place will allow you to request most distributions from your IRA without submitting a new distribution form each time. To establish a standing withholding election please contact your financial advisor.

Asset Allocation Analysis - This analysis is for informational purposes only and is intended to be used as part of a complete portfolio review with your financial advisor. The data provided in the asset allocation analysis is subject to inherent limitations and is not guaranteed to represent actual asset class exposure(s) within your account(s) at the time of calculation. See <https://clientaccess.rjf.com/faq/#assetallocation> to learn more. Raymond James and Morningstar data are subject to the availability of fund filings as well as internal analysis and may not represent real-time

allocations.

The Cash & Cash Alternatives asset class represents cash and money market holdings, as well as cash allocations contained in mutual funds, annuities, and other investment products. For an actual cash value, please refer to the holdings sections of the Client Statement.

Due to rounding, the sum of the broad classes may not exactly match the total assets value.

Product Interest Rate Risk - The performance of your investment can be affected by various risks, including without limitation, interest rate risk. The fixed income portion of your investment is particularly sensitive to interest rate risk. Generally, a rise (fall) in interest rates will reduce (increase) the market value of the fixed income portion of your investment. An overview of this and other risks is available at <https://www.raymondjames.com>, <http://www.finra.org>, <https://emma.msrb.org>, and <http://investinginbonds.com>.
